

## LANE MARKING LIGHT

### CHARACTERISTICS

Input Voltage	:	80-280V AC
Number of LED	:	3
Type of LED	:	Warm White/White
Power Consumption	:	18W
Intensity lux	:	50@1mtr
Body	:	Aluminum
Casing	:	Toughened Glass
Cable Gland	:	8mm
LED Size	:	35mm X 6mm

### SPECIFICATIONS

### SPECIAL FEATURE

Metal Cage

### ABOUT INSTAPOWER

Instapower is one of the fastest growing companies in India engaged in manufacturing and exporting of quality LED products like Aviation Light, Street Light, Traffic Light, Solar Delineator, Solar Stud, Solar Lantern, Lane Marking Light, T5\* Tube Light, outdoor Light, RGB Lights, Signage & Moving Signage. Sturdily built and precisely engineered, our products performance conforms to the international standards.

### QUALITY

We, at Instapower, believe that it is critical for our products to have better illumination ability and energy efficiency and be also 100% fault-free. Therefore, to deliver the best quality products, we have followed a quality management process that adheres to international standards. We are backed by a pool of quality personnel who regularly check the production process to ensure that we leave no loopholes for any kind of flaws to occur. The quality testing process enables us to test our products on all different parameters such as:

- Better illumination capacity.
- Low power consuming.
- No maintenance.
- Eco friendly.
- Use of SMPS design.
- Simple installation.
- Reliable.
- Long working life.
